Demise of G. Bussard

The many friends in this community of the Bussard family were surprised last week to hear that Mr. Guilford Bussard, who left the Lewisville district last fall to spend the winter with friends in Minnesota, had been called to the great beyond. He was born on February 3, 1850, and died May 8, 1915, hence he was aged 65 years and 3 months. He had not been enjoying good health for some time previous to his demise, and was confined to bed at the home of his daughter, at Bruno, Minn., where he was when the spirit took its flight. About ten years ago he joined the rush for Alberta lands and after looking over different parts of the province, filed on a homestead in the Lewisville district, where he lived prior to going on a visit last autumn.

Deceased was a life long Methodist and with the assistance of others, was instrumental in having a church erected in the district.

He leaves to mourn his loss a widow and family of three daughters, and two sons, namely, Mrs. Harry Jennings, Bruno, Minn.; Mrs. O. O. Porter, Gadsby, Alta.; Mrs. R. M. Porter, near Wetaskiwin; and Mr. A. D. Bussard, at Cerlo, Alta., and Lee Bussard on the homestead.

The remains were brought to the city for interment in the Wetaskiwin cemetery, the funeral taking place on Monday afternoon last, under the direction of Moore's Undertaking Parlors. Rev. Wright conducted the services and a large number of the friends besides the members of the family were in the cortege. The pall bearers were Messrs. D. MacEachern, Frank and A. G. Gross, Peter Gruner, U. G. Stowell and J. F. Richards

Hymen's Altar

A quiet wedding took place at the Methodist parsonage on Monday evening of this week when Mr. Cedric F. Everts, engineer for MacEachern &McCallum, was united in holy matrimony to Miss Viola E., daughter of Mr. and Mrs. James Wilson, of this city. The ceremony was performed by Rev. M. L. Wright. The subscribing witnesses were Miss M. D. Moore, M.A., and Mrs. Samuel Rogers. We join in extending congratulations.

A quiet wedding took place in Edmonton on Friday evening last when Mr. Thomas Higginson, an officer of the 49th Battalion and Miss Miethausen, of the teaching staff of the Alexandra school, were married by the Chaplain of the 49th. It is expected that Mr. Higginson is now on his way to the continent, as the 49th was ordered to be in readiness to leave for the front this week. The happy couple returned to Wetaskiwin on Sunday evening's train. We join in extending to Mr. and Mrs. Higginson the heartiest congratulations.

On The Sick List

Miss Fanny Jordan underwent a successful operation at the hospital a few days ago. Her host of friends are delighted to know that she is convalescing rapidly.

Mrs. Dr. Stevenson underwent a serious operation on Monday of this week, and her many friends are pleased to know that she is improving as well as could be hoped for. Dr. Allan of Edmonton performed the operation.

H. L. Higgs, who has been suffering with an abnormal growth on the heel for some time, submitted to the surgeon's knife the first of the week and will now be confined to the house for a few days.

Relief Corps Notes

The monthly business meeting of the Women's Relief Corps will be held on Wednesday, May 26, at 4 p.m. in their rooms above the Merchants Bank. A full attendance of members is requested.

There is need for more ladies to sew during the summer months and the Corps has plenty of material to proceed with the work.

The relief committee can make use of more clothing. They are trying to provide for a family consisting of the mother, a small woman, 2 girls, ages 7 and 9, and 2 boys, ages 2 and 4. Clothing that can be made over will be acceptable.

The Corps wish to thank Mr. Nowell, Miss Nowell, Mrs. Wenham and Mrs. Anderson, for the work they have been doing at Yeoford.

Women's Institute Meeting

The Wetaskiwin branch of the Women's Institute will be held in the Empress Theatre on Saturday afternoon, May 23th, at 3 o'clock sharp. The speakers will be Miss Goldie, of the Agricultural College staff, at Olds, and Miss McIsaac superintendent of the Women's Institute work in the province. In addition to these instructive and interesting addresses the remainder of the officers for the Wetaskiwin branch will be elected.

It is the intention of the Institute to hold monthly meetings, at which outside speakers will be present to discuss some particular phase of the work. No charge whatever is made to hear these instructive talks.

A most urgent invitation is extended to ladies both in the community and city to be present on Saturday afternoon, May 29.

Wetaskiwin Students Pass Musical Examinations

The results of the theoretical examinations held at the McGill Conservatory of Music, Edmonton and Wetaskiwin, are as follows: Grade 4, Annie Johnson carried off the highest honors having received 150 marks out of a possible 150. Grade 4, Irene Henderson and the following deserve distinction, Bertha Weston, Mabel Poole, Olive Leroy, Jean Thompson, Marjory McNab and Masie Smeeton, the latter two having passed their examinations creditably. The examiner was Dr. H. C. Perrin and the tutor, Claude Hughes.—Journal.

Red Cross Notes

The following cable from has been received by Mrs. Plumptre, secretary of the National Service Committee, from Mr. J. G. Colmer, secretary of the Canadian war contingent association:—"Articles most required are socks, colored handkerchiefs and extra comforts such as tobacco, cigarettes, pipes, matches, soap, confectionery, cocoa, cake, tooth brushes, stationery and sundry other useful articles. The association is supplying these regularly and will continue doing so while resources permit. Supplies of socks and handkerchiefs and money for other comforts cordially welcomed. There is no difficulty about transportation. All our consignments are sent with the military forwarding department on this side, and in France and the authorities are co-operating with us cordially."

The following articles were sent to the Canadian soldiers at the front during the month of March by the Canadian war contingent association:—12,364 pairs of socks, 48 cases of tobacco and pipes, 1,003 cardigans, 3,014 mufflers, 3003 helmets, 3606 pairs of wristlets, 96 dozen towels, 65,000 cigarettes, 14,008 boxes of matches, 1176 boxes of confectionery, 11 sets of boxing gloves, 12 footballs, 41 baseballs, 12 tennis balls.

In connection with the information department of the Canadian Red Cross society, Colonel Hodgetts, the in a recent report received by Mr. Boel Marshall, chairman of the executive committee, says that this Canadian commissioner in London, branch of the society's work continues with charistic activity. The ladies are most enthusiastic and painstaking and the men workers in the different portions of the country and in France are reporting regularly to the office as to the condition of the sick and wounded.

Col. Hodgetts continues—"Not the least interesting and important portion of the work is the supply of the Red Cross supplies and comforts to the scattered Canadians. The letters reporting as to the soldiers needs and the articles being parcelled up and mailed to the patients.

Col. Hodgetts remarks that he is sure that this work will appeal to Canadians as they will feel that what they have contributed to the Red Cross Society is being properly and efficiently disposed of.

HARRY J. WELLS

ALFRED A. PECKNOLD

In the recently published lists of casualties from the front appear the names of two Wetaskiwin boys—Harry Wells and A. A. Pecknold. Prior to going to the front Mr. Wells had charge of the grocery department of Fowler & Co's. store, and Mr. Pecknold was cashier in the C. P. R. freight office.

It is a strange coincidence that these two young men enlisted at the same time, were transferred from the Ninth to the Third Battalion at the same time, were chums during the training at Salisbury Plains, and were both reported missing after the battle at Langhemarcq.

This is the particular time of the year when the editor is pressed most sorely for finances and the situation could be relieved greatly by subscribers paying up their arrears or renewing their subscriptions more promptly upon expiration. A large number of subscriptions expire this month. Anyone owing us on account would oblige us greatly by making early settlement.

Wetaskiwin Lodge No. 8, I.O.O.F., held a most enjoyable social evening on Monday night last, when a number of the friends of the members assembled for a whist drive. Mrs. A. R. McKenzie won the first prize for the ladies, and Mr. J. F. Ellis was given the prize for the gentlemen. The booby prizes were presented to Mr. and Mrs. Keevar. Ices refreshments, an informal dance was held.

The Dominion parks branch has recently issued three publications that are noteworthy on account of the attractive form in which they are printed and the interesting matter they contain. They are. "Classified Guide to Fish and their Habitat, in Rocky Mountains Park"; The Nakimu Caves"; and "Glaciers of the Rockies and Selkirks." The pamphlets may be obtained upon application to the Dominion Parks Branch, Ottawa, without charge.

Some anxiety has been felt for some time for the safety of Addie Viau, who left for the front with the Ninth Battalion, and was transferred to the 2nd Battalion before leaving for France. But word was received from him this morning that he has so far come through without a scratch. He also states that W. Smith, who is in the same battalion with him, is uninjured. As the letter was dated April 30, it might be presumed it was written after the big battle at Langhemarcq, in which the Second Battalion made such a brilliant showing, and in which so many men were lost.

R. Randolph Bruce, the well known rancher and old-timer in Western Canada, who has just returned from Europe, says that the effect of the war upon the Canadian farmer will be to increase the price of beef so much greater that those who are raising cattle will make more money even than those who are raising wheat at a dollar and a half a bushel. This statement is borne out by H. S. Arkell, assistant live stock commissioner for the Dominion government, who says that never in the statistical history have prices attained so high a figure either for cattle on the hoof or in the form of meat as today. What it will be next year, when the full effect of the war is felt, is impossible to say. There is, therefore, a very splendid opportunity for the Western Canadian farmer to obtain a great proportion of the European business.

Hon. Duncan Marshall, minister of Agriculture, who has just returned to Edmonton from an automobile trip through the greater part of Southern Alberta says "The crops throughout the province are in splendid condition and although the statement that there are prospects of a bumper crop has been repeated so often each year as to become somewhat hackneyed, I do not know of a year in my experience of Alberta when the statement could be made with more justification. In those districts of the south where hardly an ear of grain grew last year, owing to drouth there have been such abundant rains that the country has had a thorough soaking, and I never saw such an inspiring sight as when I travelled through these districts last week, with the strong and healthy shoots painting the landscape a solid green."

THE BATTLE OF BALLOTS

On July 21, 1915, the greatest battle in the history of Alberta will be fought between the supporters of the Licensed Liquor Traffic and the advocates of a dry Alberta.

The battle will wage around what is called the Liquor Act—an Act prohibiting within the Province the sale and gift of intoxicating liquors for beverage purposes.

The advocates for a dry Alberta will vote for the Act; the friends of the liquor interests will vote against the Act.

The battle will last only one day—July 21—but its consequences will be felt for all time.

All the work that may be done by both parties between now and July 21, will be merely the mobilization of forces preparatory to the one day of battle.

The mobilization is important, but it is the one day, July 21, that determines whether Alberta shall go dry.

Do not forget that July 21 is the day.

This will be a battle of ballots. A man's ballot is his voice in the government of his country—his one way of expressing himself on public issues—the one weapon he can wield that politicians and governments will respect. Ballots are the only bullets in the battle. They are the only weapons that count.

Pious sentiment, earnest prayer, heartfelt sympathy, are useless unless a ballot is cast. Powder is useless unless it has a bullet to drive. Prayers are useless unless they are cast in the form of a ballot. To cast a ballot is a sacramental act—a prayer—a form of service—the crowning glory of a free citizen in a free land. One should therefore drop his ballot into the ballot box as reverently as he drops on his knees to pray.

Only ballots count in this battle. Ballots are not weighed; they are counted. Every ballot counts. The ballot of a saloon keeper counts as much as the most patriotic citizen of the province. The side that casts the most ballots wins.

Ballots are the only bullets in this battle. Every bullet will find its mark. There will be no misses. The side that fires the most bullets wins.

Every friend of the saloon will cast his ballot. Every friend of a dry Alberta must cast his ballot.

July 21 is the day.

The saloon will not be without allies. All the forces of unrighteousness in the province will line up under its direction. The tin-horn gamblers, the parasitic pimps, the brothel-keepers, the shyster politicians, all of every class who merit a place in the Rogue's Gallery will be there. July twenty-first will find every one of them at the polls.

What forces will vote against the saloon?

The Church and Home, the long-standing dual alliance, will lead the conflict.

The forces that were previously neutral will ally themselves with the Church and Home.

Scientific Medicine says that the aloon must go.

Big Business has decreed that the saloon must go.

The forces of labor say that the saloon must go.

The Farmers of Alberta have decided that the saloon must go.

All the interests of Home and Industry and Science will wage this warfare against the saloon.

The issue is clearly defined. Everyman who votes will vote for wealth or whisky, brains or brandy, business or beer, wife or wine, babes or bottles, boys or booze, girls or gain, home or hell.

A man is known by the company he keeps. A man is known also by the cause he votes for. To vote for a wet Alberta is to class one's self with the allies of the saloon, the tin-horn gambler, the parasitic pimp the keeper of brothels, the shyster politicians.

To vote for a dry Alberta is to ally one's self with home and church and science and industry and God.

Every vote cast will affect the issue; but every vote cast will also pass a judgment upon the man who casts it.

"Once to every man and nation comes the moment to decide,

In the strife 'twixt truth and falsehood, for the good or evil side;
Some great cause, God's new Messiah offering to each the bloom or blight
Parts the goats upon the left hand, and the sheep upon the right,
And the choice goes by forever, between the darkness and the light"

F. W. Patterson.

If You Wish to Be Well You Must Keep the Bowels Regular.

If the bowels do not move regularly they will, sooner or later, become constipated, and constipation is productive of more ill health than almost any other trouble.

The sole cause of constipation is an inactive liver, and unless the liver is kept active you may rest assured that headaches, jaundice, heartburn, piles, floating specks before the eyes, a feeling as if you were going to faint, or catarrh of the stomach will follow the wrong action of this, one of the most important organs of the body.

Keep the liver active and working properly by the use of Milburn's Laxa-Liver Pills.

Mrs. Elijah A. Ayer, Fawcett Hill, N.B., writes: "I was troubled with constipation for many years, and about three years ago my husband wanted me to try Milburn's Laxa-Liver Pills, as they had cured him. I got a vial and took them, and by the time I had taken three vials I was cured. I always keep them on hand, and when I need a mild laxative I take one."

Milburn's Laxa-Liver Pills are 25c a vial, 5 vials for $1.00, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

SPECULATION AND SOIL FERTILITY

The farmer of western Canada has long been upbraided for his disregard of the principles of scientific agriculture. The gospel of mixed farming, as the safeguard against soil exhaustion, has been constantly dinned into his ears, but as a rule, the advice has been constantly ignored, and the farmer has adhered religiously to his system of soil mining. As a matter of fact, he has seldom denied that his farming methods are unscientific. What, then, is the explanation of the general and firm adherence to a mistaken course? The typical western farmer is neither lazy, unintelligent or particularly short-sighted. Certainly, it is not that he is ignorant of the principles and practices of scientific agriculture, for the Canadian west has recruited its pioneers from the best farming communities of the British Isles, Ontario, the Maritime Provinces, Illinois, Iowa, Wisconsin, Kansas and Nebraska. His failure to follow proper methods of cultivation is due to none of these causes, except in a minor degree.

The main difficulty today consists in the fact that our western farmer, like his counterpart of a few decades ago, plays a dual role. He is a farmer and a land speculator and it is often doubtful which characteristic predominates. Many homesteaders, of course, are farmers, purely and simply, but for thousands of others speculation is practically the sole motive. The representative westerner, however, combines the two occupations—agriculture and speculation—and, needless to say, as a speculator he is an indifferent farmer. The combination is not favorable to good farming and to the conservation of soil fertility. The average farmer, in anticipation of a rapid rise in land values, has burdened himself with as large an acreage as he could acquire. Having assumed heavy obligations, usually with little capital, he has faced high interest rates, a scarcity of labor and high cost of implements. He has been compelled, in order to hold his land for the promised advance in price, to resort to the system of cultivation that produces the maximum gross revenue for the minimum of outlay. The bona fide farmer has farmed with a view to insuring the permanent productivity of his land; the speculator, par excellence, has not farmed at all; the farming speculator or the speculating farmer has operated his agricultural plant at capacity speed with a view to selling it before the output diminishes appreciably. He has not been content to receive a normal profit from the farm. He has robbed the business as a going concern by encroaching on capital. Soil fertility is the capital asset which a wise agriculturist maintains unimpaired.

When this war is ended the impression will no longer prevail that the officers and commanders stay behind and do the directing in safety while the men do the fighting and take all the danger.

"TAKE THAT FOR CANADA!"

London, May 8—Slowly, from a score of sources, the story of the Toronto regiments at Ypres is being learned—a history which thrills the blood and stirs the soul with its wonderful pages. From letters received from the front, from officers privates whom I have seen personally from the stories of wives, mothers, fathers and friends who are here reeking night and day for their loved ones, I am gradually gaining a view of the mighty conflict to which no writer ever could do justice.

They fought like veterans, did these amateur soldiers. They fought all through a hell of shrapnel shells and rifle fire. They fought back to back in bloody trenches, their dead thick around them. They fought for Canada and for the honor of Canada, till only battered remnants of the regiments remained. They went on fighting, without food or water, until the reserves brought relief, and the living went back to rest, dazed from the awful struggle.

They knew they were fighting against desperate odds. They knew their chances were slim. They knew many would go down to the death.

I have it from one wounded man that they were told in advance what faced them that the honor of Canada rested on their shoulders.

They were told that the way to Calais was in their keeping. They kept it.

I have heard men express doubt of the stories of the Canadians cheering for Canada as they went into the fray. I have it on authority of a British general that they did cheer—a great cheer that moved the men's hearts with wonder.

I know from wounded Highlanders that the 48th fought back to back with their bayonets, in exposed trenches, throwing off attack after attack of the surrounding Huns and as the bayonets went home the cry went up along the line, "Take that for Canada."

All through those interminable hours of deadly fighting, the bayonets went home again and again and always with that same cry "Take that for Canada."

Hundreds of Germans thus met their deaths, for in cold steel fighting the Highlanders were fighting that Calais might not be lost, that Canada, through them, might win honor among the nations.

METHODIST

Sunday, May 23.—
11 a.m.—"God's Love Commended" Sacrament of the Lord's Supper; Election of the Society representatives to the Quarterly Official Board.
2.30 p.m.—Sunday School.
7.30 p.m.—"Joseph's Administration."

The annual meeting of the Ladies' Aid of the Methodist church was held in the church parlors on Wednesday of last week, when the officers for the ensuing year were elected as follows: Pres., Mrs. A. C. Crosby, 1st Vice Pres., Mrs. Geo. D. Wallace; 2nd Vice Pres., Mrs. W. F. Rook; Treas., Mrs. R. A. Elliott; secretary, Mrs. C. D. Eaman; assistant secretary, Mrs. Dr. Stevenson; management committee, Mrs. J. F. Fowler, Mrs. Geo. D. Wallace, Mrs. H. L. Higgs, Mrs. A. Rodell, and Mrs. Starkey. The ladies did excellent work during the year, raising the magnificient sum of $450.

PRETENDED "WAR TAXES" DO NOT PRODUCE THE REVENUE

The "War Budget" brought down by the Hon. Mr. White went into effect so far as tariff matters generally were concerned on February 12, last. The stamp tax, however, was not levied until April 15. Thus the last fifteen days of April was the first real test of Mr. White's pretended "War Taxes" as a revenue producer.

Instead of an increased revenue as was predicted by Mr. White it has fallen off over two million dollars over the preceding month. Here are the figures:

February	$10,323,314
March	11,641,970
April	9,627,737

Was Sir Wilfred Laurier right when when he stated in his Budget speech that these new taxes would produce little or no extra revenue?

NO FESTIVITIES ON THE KING'S BIRTHDAY

Ottawa, May 8—Apart from the flying of flags, it is the desire of His Majesty King George that no ceremonies of any kind whatever shall mark June 3, his birthday, this year. This wish is set forth in a despatch which Lewis Harcourt, secretary of state for the colonies, has forwarded to the Duke of Connaught.

"It is His Majesty's wish," says this despatch, "that on the occasion of His Majesty's birthday this year, flags should be flown, but no reviews, reviews, salutes or other celebrations should take place."

The despatch is included in militia orders issued Wednesday, accompanied by the injunction that officers commanding divisions and districts will take steps to carry out his Majesty's wishes throughout their respective commands.

The Board of Trade meeting on Thursday night was addressed by J. W. Bruce, of Patience, relative to a college under the direction of the Church of the Nazarene locating here. They would require to start with a quarter section of land adjoining the town, which would give work for some of their students. They would require some financial help from the people of the district and in order to make the public thoroughly acquainted with the matter the Board of Trade have taken the matter in hand and are calling a public meeting for Wednesday evening, May 26, in the Millet hall at 8 p.m. It is hoped that a large turnout of ladies and gentlemen will be present to thoroughly discuss the project Mr. Bruce will be in attendance to give all the information he can.

The Hillside Baseball Club are holding a picnic in Shaw's Grove, Hillside on Monday, May 24. If the weather is favorable a large crowd is expected.

At the Board of Trade meeting on Thursday last President Mitchell notified those present that his resignation would be handed in at the next meeting. It is therefore required that a large turnout of the members be present on Thursday evening, May 27, for the purpose of selecting a president to fill out the balance of the year.

On Saturday evening, Mrs. Schleuder, Mrs. Patterson and the little daughter of the latter, were out for a drive, with Mr. Schleudre's horse and buggy. When going south, along the Inverary stock farm, they met an automobile. The horse was never before afraid of them, but evidently in this case the car was driven so close to the animal that it caused him to jump. A shaft broke and the horse naturally ran. Mrs. Patterson threw the little girl out, so that she escaped injury. It is thought that Mrs. Patterson jumped out and fell backwards. In any case, she received the most severe injury to her head, causing concussion of the brain. The worst was feared for a time, but she has been gradually improving and now appears out of danger. Mrs. Schleuder held on to the lines until the seat broke and she was thrown out, receiving quite severe bruises, but nothing serious.—Daysland Press.

GOOD ROADS AND LAND VALUES

The building of a great deal of fine paved roads in Manatee county Florida, has shown how good roads affect land values. From 1911 to 1912 land along these roads increased on the average $20 an acre, while lands a mile from the road increased only $10 an acre. Dinwiddie county, Virginia, is another instructive case. The building of 125 miles of fine roads caused land adjacent to the roads to increase in value from $21.25 to $30.00 an acre, while lands ten miles away increased an average of $16.32 an acre. The State builds the roads and the landowner sells it if he sells the land. That would look queer to a man from another planet. The man miles away is taxed to build the roads and the man along the pike get the selling value of them. Rather queer, too, when one thinks of it a few minutes. The figures are a powerful argument for good roads, and also for a better way of apportioning the burdens and benefits.

THE WEAK SPOT IN THE BACK.

When the kidneys get ill the back gives out.

But the back is not to blame.

The ache comes from the kidneys, which lie under the small of the back.

Therefore, dull pain in the back, or sharp, quick twinges, are warnings of sick kidneys—warnings of kidney trouble.

Plasters and liniments will not cure a bad back, for they cannot reach the kidneys which cause it.

Doan's Kidney Pills reach the kidneys themselves. They are a special kidney and bladder medicine. They heal the diseased surface of kidneys and bladder, and help them to act freely and naturally.

Mrs. Chester Romain, Fort Coulonge, Que., writes: "I had been troubled with sore back for over four years, and could get nothing to do me any good until I heard of your Doan's Kidney Pills. I got three boxes, and took them and now I am completely cured."

Doan's Kidney Pills are 50c a box, 3 boxes for $1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

When ordering direct specify "Doan's."

WOMAN'S BEST MEDICINE

Mrs. Kelly Advises all Women to Take "Fruit-a-Tives"

HAGERSVILLE, ONT., AUG. 26th. 1913.

"I can highly recommend "Fruit-a-tives" because they did me an awful lot of good and I cannot speak too highly about them. About four years ago, I commenced taking "Fruit-a-tives" for a general break-down and they did me a world of good. We bought a good many dollar's worth, but it was money well spent because they did all that you claim for them. Their action is so pleasant, compared with other laxatives, that I found only pleasure, as well as health, in taking them. They seemed to me to be particularly suited to women, on account of their mild and gentle action, and I trust that some other women may start taking "Fruit-a-tives" after reading my letter, and if they do, I am satisfied the results will be the same as in my own case".

MRS. W. N. KELLY

"Fruit-a-tives" are sold by all dealers at 50c. a box, 6 for $2.50, trial size, 25c, or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

War News Affected Her.

Many people who have been reading the terrible war news from day to day, especially those who have relatives at the seat of war, have become so nervous that it is impossible for them to sleep.

The nerves have become unstrung and the heart perhaps affected.

Milburn's Heart and Nerve Pills will build up the unstrung nervous system and strengthen the weak heart.

Miss Hildia Dicaire, Martintown, Ont., writes: "In August, 1914, I was out of school for my health. I was visiting friends in London, and heard of the war. It made me so nervous that I could not sleep, but after using Milburn's Heart and Nerve Pills I improved greatly, and could take my school again. I have recommended them to many of my friends."

(Continued from Page 4)

corded as provided by this Act.

Provided further that any qualified druggist may sell to any person any combination of alcohol with any drug made according to any formula of the British or United States pharmacopoeia.

Provided always that no person authorized to sell liquors as provided by this Section shall allow any liquors sold by him on his premises to be consumed within his shop or the premises of which the shop forms a part.

(2) Any chemist or druggist who colourably for medicinal purposes sells liquors to be consumed by any person as a beverage shall on summary conviction be liable to a penalty for the first offence of $200, and in default of such payment to imprisonment for a period of three months, and for any subsequent offence to imprisonment for not less than four months and not more than six months without the option of a fine, and in addition shall be disqualified from selling liquors under the provisions of this Act for the period of one year.

24. No person within the Province of Alberta by himself, his clerk, servant or agent shall have to keep or give liquor in any place whatsoever, other than in the private dwelling house in which he resides, except as authorized by this Act.

(1) This Section shall not prevent any person engaged in mechanical business or in scientific pursuits from having in his possession alcohol for mechanical purposes, as the case may be, in a quantity not exceeding ten gallons at a time, but the alcohol used in preservation of specimens for scientific purposes shall not be included in said ten gallons, and it shall not prevent any clergyman from having in his possession a quantity of wine for sacramental purposes not exceeding two gallons at any one time; but such person in this Sub-section mentioned so having in his possession such liquor shall not allow same to be used or consumed as a beverage.

(2) Nothing in this section shall prevent an incorporated public hospital from having in its possession liquor for the use of the patients in such hospital, but no manager, matron, or other officer of said hospital, and no physician or nurse in attendance thereat shall give any of said liquor to any person other than a patient in said hospital and then only when prescribed for or administered by a physician as provided for in Section 32 of this Act.

(3) Nothing herein contained shall prevent a sick person from having in his room where he sleeps the liquor prescribed for him by a physician under Section 31 of this Act, but no liquor so prescribed shall be given by the physician, nurse or other attendant to any other person than the sick person for whom it has been so prescribed.

25. PREMIER SCOTT'S DIP.

How the Saskatchewan Legislator Hit the Air Whirlpool.

Higher and higher soared the biplane like some gigantic bird. The woman with the lever in her hand smiled happily. She knew they were now over four thousand feet up in the air. The rather heavy set, elderly man passenger who had craved thrills in an airship sat tightly, as he had been told, but with firmly compressed lips. He inwardly hoped that this outward appearance indicated a real enjoyment of the sensation of flying. Never for a moment did his eyes swerve from the slight, girlish figure of the woman before him. How cleverly she managed the great, flapping machine! One false move of the lever and——

The man's reflections ceased abruptly. He became suddenly obsessed with the idea that something out of the ordinary had occurred. He leaned forward breathlessly. The young woman at the lever held his life in her hands. Surely the smile on the face of the golden-haired aviatrice was just as bright, but, even as the man looked, her blue eyes seemed to become keener, her slight form more alert. Her trim-gloved hands moved quickly from lever to lever. There came an almost imperceptible jar as the ship seemed to be swinging around. The air currents changed. The man gasped again. It was no imagination. Something was really happening. The ship was surely turning around, now slowly, now faster, again and again. The man passenger who had wanted thrills was getting them.

"Are you frightened?" asked the woman at the levers.

"No, n-n-not at all," gasped the man as he felt himself being whirled faster and faster through the air.

Down, down, around and around, down again, even circling, swifter and swifter went the machine, while the man held tight and gasped and the woman gazed off into space with those keen blue eyes that are so unfashionable and smiled.

"We just encountered an air whirlpool," she observed nonchalantly as she helped her much thrilled passenger to alight, "and I had to start the spiral dip, that was all."

All! Just a sudden little whirl of four thousand feet to earth. And this woman spoke of the matter with the calm indifference with which any other woman might say she dropped a hairpin.

"I'll rest for a few moments and think it over. I feel a bit dizzy," said the man.

Was it any wonder?

The man was Premier Walter Scott, of Saskatchewan, Canada, and the woman who whirled him from the skies in a $6,500 Wright biplane was Miss Ruth Bancroft Law, called the most daring woman aviator in the world.

"There was really nothing to be afraid of," remarked the young woman when telling of the experience. "All I had to do was to keep the machine under control. But it once got to going too fast in that mad whirl the air pressure would have ripped off a wing. The secret of safety in the spiral dip is to pull up slowly enough to get out without any sudden change. It is perfectly simple."

"Of course," she explained, "Mr. Scott did not know we were in a whirlpool. He only knew we were going like a merry-go-round, and I guess he held his breath a bit. He told me afterward that for many days the earth seemed to him to an incline plane upon which he had great difficulty in walking."

Bears in Rain Barrel.

Some very funny hiding places have been found by the provincial police in Northern Ontario for the "booze caches" of "blind piggers," but Provincial Constable R. J. Stallwood, of Cowgandia, has just had one of the cleverest concealments revealed to him.

When Supt. Rogers of the provincial police, was in Cowgandia a little while ago, he issued orders that one T. Cohen, who was suspected, must be apprehended. As it was useless to try the "snooker" method, Stallwood learned that Cohen always went out the back door for the liquor. On a recent Wednesday night the constable concealed himself in the rear of the shanty and waited for him to come out. The night passed off, and one after another of the early hours came and went, leaving the officer shivering, but still determined to finish his work. At a late hour in the morning Cohen issued from the back door, and going to the rain barrel lifted out a bottle.

Stallwood sprang out of the thicket in which he had been hiding and arrested the man. The next day in court Cohen was fined $200 and costs.

Reindeer Recaptured.

The Department of the Interior has received word that nearly all of the reindeer which recently escaped from the Government corral on the Great Slave River in Northern Alberta have been recaptured. No trace has been found as yet, however, of the herd which escaped earlier in the summer. Three captured reindeer will enable the Government to continue the experiment begun last year as to the feasibility of breeding reindeer in the west for domestic purposes, but a longer time will now be required to increase the herd to the desired proportions for determining whether or not the scheme will prove of practical economy and benefit.

British Arrivals Predominate.

Figures issued by the superintendent of immigration to Canada during the first six months, April to September, of the current fiscal year, was 307,267. Of the new arrivals 121,204 were British, 72,880 American, and 113,183 from all other countries. During the same period last year the total number was 273,649, composed of 108,331 British, 89,659 American, and 75,659 from all other countries. The increase is 12 per cent.

The births outnumbered the deaths in the province last year by over three to one. There was a considerable increase last year over the number of births the previous year, but marriages and deaths decreased considerably.

When the commanders were notified that it might be a step nearer the war arena in Europe if they could find their way clear to go as foot soldiers it is stated that the answer was in the affirmative in every case, without a grumble.

On Monday, C. N. Penticost, the mail carrier from Hastings Coulee, was brought before Justices Davidson and McDowell, at Dayseland and charged with cruelty to animals in that he had left his team out in the recent snow storm. He was fined $2.50 and costs.

Following the despatch from Ottawa that many mounted units have offered to go as infantry because there is little demand for cavalry it is understood that the whole of the western mounted infantry brigade under Colonel Sissons have expressed a willingness to go as infantry if necessary. This brigade consists of the 1st of Manitoba, the 2nd of British Columbia and the Third of Alberta.

The annual meeting of the Wetaskiwin district of the Methodist conference will be held in Bawlf Methodist church on Tuesday and Wednesday, May 25 and 26. Delegates will be present from Millet, Wetaskiwin, Bittern Lake, Camrose, New Norway Ferintosh, South Camrose and Bawlf —about sixteen delegates. There will be a public meeting on Tuesday evening, the 25th, beginning at 8.15, when addresses will be given by Rev. C. G. Cornelle, B. A., of Camrose, and Rev. T. C. Buchanan, superintendant of missions.—Bawlf Sun.

In a certain office the manager was about to be married. The staff raised a fund to buy a wedding present. The total amounted to something like fifty dollars.

"What we want to do," said the collector of the sum, "is to get the chief a present that will make the most show for the money—something that will spread out and show up strong. Anybody got any suggestions?"

"Buy him fifty dollars' worth of rice," said the vice-president, "and boil it."

GENERAL NEWS

London, May 19—The formation of a non-partisan cabinet for the period of the war is an established fact The spokesman for the two great rival parties, Premier Asquith and Andrew Bonar Law, made statements in the house of commons today confirming the reports of a coalition ministry which several newspapers launched yesterday. The premier said that nothing had been definitely arranged, but three things were certain—that the prime minister and the foreign secretary will continue in office; that no change is contemplated in the policy of prosecuting the war with all energy, and that the reconstruction of the cabinet will not mean any surrender by persons or parties of their political purposes. Andrew Bonar Law, in endorsing this statement, said, "Our sole consideration is what will be best for finishing the war successfully."

London, May 19.—The British North America bill, designed to empower the Canadian government to increase the Dominion's senatorial representation, passed the lords today and received the royal assent tonight.

The council of the city of Edmonton is considering the granting of a franchise to a company which undertakes to supply natural gas for domestic and industrial purposes. Six different propositions have been placed before the council, and it is believed that there is a sufficient supply of gas actually in sight to provide the present requirements of the city. Edmonton is now the only city in Alberta with a population of over ten thousand in which natural gas is not used for fuel, and it seems only a question of time until this most convenient fuel is available to all cities and towns in the province.

THE KNOCKER'S PRAYER

"Lord, please don't let this town grow. I've been here for 20 years and during that time I have fought every public improvement, I've knocked everything and everybody, no firm or individual has established a business here without my doing all I could to put them out of business. I've lied about them and would have stolen from them if I had had the courage. I have done all I could to keep the town from growing and have never spoken a good word for it. I have knocked hard and often. I've put ashes on the children's slides and I've made the policeman stop the boys from playing ball on my vacant lot. Whenever I saw any one prospering or enjoying themselves, I've started to reform, to kill the business or spoil the fun. I do not want the young people to stay in this town, and I will do all I can by-law, rule and ordinance to drive them away. It pains me, O, Lord, to see that in spite of my knocking, it is beginning to grow. Some day I fear that I will have to pay frontage tax for putting down sidewalks in front of my property, and who knows but what I may have to help keep us streets that run by my premises. This, Lord, is more than I can bear. It would cost me money, though all I have wasmade right in this town. Then, too, more people might come if the town begins to grow, which would cause me to lose some of my pull. I ask, therefore, to keep this town at a standstill that I may continue to be chief."—Exchange.

HARDISTY

Hardisty, May 15.—An interesting story of a linen sheet comes from the secretary of the Red Cross society at Montreal. Last September, Mrs. Downham, of Hardisty, sent a parcel of linen to the Red Cross society, among other things being a big old linen sheet which was woven by Mrs. Downham's great grandmother. The date, 1837 was worked in one corner of the sheet. The secretary of the society noticing the date and the hand woven material, thought it was a pity to tear up this relic into bandages. So she cut it up into little pieces which were made into workender bags. Then a Danish girl was employed to cross-stitch on them in red and blue "Woven 1837, accession of Queen Victoria". On the other side of the bag she put a large red cross and "The Great War, 1914," in blue. The bags were sold as souvenirs and brought in the handsome sum of $50, besides paying the girl for her work. The money was used to provide a bed in the hospital for Canadians in the Duchess of Connaught hospital at Cliveden. The corner of the sheet that was originally marked "1837" was made into a lavender bag and returned to Mrs. Downham as a souvenir, which no doubt will be highly prized for several generations.

WAR COSTS BRITAIN

$10,500,000 PER DAY

London, May 4—In one of the shortest budget speeches on record, he being on his feet a little over an hour, David Lloyd George, the Chancellor of the Exchequer, today gave the British public further insight into what the war is costing the nation.

The war at present, Mr. Lloyd George said was costing £2,100,000,($10,500,000) daily, and he added that if the war continued for a year Great Britain's bill would be upwards of £1,000,000,000 sterling ($5,000,000,000). The debt of the country, according to Mr. Lloyd George, already had been almost doubled, and stood well over the $5,000,000,000 mark.

The Chancellor declined to predict the length of the war. He introduced no measures calling for new taxes, although he hinted that such a step likely would have to be taken. There was little discussion of the Budget itself and the usual income tax resolutions were passed before the house adjourned.

GGRMANY JUSTIFIES SINKING OF LUSITANIA

Paris, May 18—Germany's reply to the American note on the sinking of the Lusitania will be sent Thursday according to The Matin's Amsterdam correspondent, who says he is informed that it will justify the attack on the steamer on the ground that the submarine commander has affirmed in his report that only one torpedo was fired, which convinces him that the second explosion was due to the fact that the ship carried munitions of war. The report is said to state that the torpedo was fired in such a way that the Lusitania would not have sunk if she did not have explosives aboard.

Word was received today by the board of trade that the Canadian government had awarded a contract of 20,000 shells to the Buckeye Machinery company of Victoria Square. —Calgary Herald.

GET AFTER INTERNATIONAL SECURITIES CO.

It is up to all persons who purchased lots in the Hyde Park subdivision to Lacombe, put on the market by the International Securities Co., to get after that firm and get their money back. The following case decided against that company in Edmonton by Judge McCarthy a day or two ago establishes a precedent.

Edmonton, April 30.—The case of Arthur Crick vs the International Security Co., Ltd., was heard this morning in the supreme court before Mr. Justice McCarthy. In this action the plaintiff had purchased two lots in Tuxedo Park, at Regina, agreeing; to pay for the first one $1,-700 and for the second, which was purchased a few days later $1,350. The sum of $896.70 had been paid on the first lot and $667.20 on the second. The contention of the plaintiff was that the company, or through their agents, had mis-represented the property. The defendants on the other hand denied their had been any misrepresentation with their knowledge. After hearing evidence, Mr. Justice McCarthy gave judgment for the plaintiff in the amount of money which had been paid in, together with interest at the rate of 5 per cent from the date of the payments. —Lacombe Globe.

The Business Aspect Of The Liquor Act

One of the most significant aspects of the prohibition campaign now going on in Alberta is the active interest being displayed by the business classes in the community, and also by men who are in no way connected with the licensed trade. The material side of the liquor question is all too frequently being overshadowed by the moral aspect, but that the material side is also of great importance is demonstrated by the fact that organizations composed of business men are being formed in the leading centres of population in the province for the purpose of opposing the proposed Liquor Act.

Business men realize that the operation of that measure would result in the dislocation of important interests, the destructor of a very large amount of invested capital, and the elimination of proper hotel accommodation for the use of the public. These are things which intimately affect the community. It is no light matter to destroy capital at a time such as the present. As a matter of fact what is wanted is the conservation of all possible capital so as not to impair the aggregate financial well-being of the community.

It is ridiculous to assert that the existence of liquor licenses has militated against the progress of Alberta. The evidence is all to the contrary. There are many business men in Alberta who are not satisfied that the abolition of licenses would add to our progress—as its promoters so confidently claim.

It is significant, in connection with this aspect of the question that not a single wealthy or progressive state in the United States has adopted Prohibition. These states which are "dry" are amongst the least important of the States of the Union. Last November, when a number of smaller States went "dry" the large and prosperous states of Ohio and California rejected Prohibitory legislation by very large majorities.

The same thing is to be seen in Canada. No progressive Albertan would suggest Prince Edward Island as an example of the successful working of Prohibition. Are Nova Scotia and New Brunswick such wonderful monuments of the material prosperity accompanying Prohibitory legislation as to be examples to be followed by go-ahead Alberta? Are the "dry" belts in Quebec and Ontario representative of the wealth, population and intelligence of those provinces or do they only form portions of the less progressive parts. The latter is generally conceded to be the case.

These are matters which appeal to thoughtful business men, and there is the further fact of the Liquor Act withdrawing all regulation and examining the door to abuses of all kinds. The elimination of the provincial revenue from liquor licenses and the throwing upon the province the heavy financial burden of administering and enforcing the numerous penal clauses of the Liquor Act are also matters which are not escaping the attention of business men who prefer to deal in hard facts and are not led away by sentimental platitudes or well-meaning but spurious sentiment.

All these are considerations which have induced business men in the province to come out in opposition to the Liquor Act. They claim—and rightly so—to be actuated by the best of motives and to be as good citizens of Alberta as any other class in the community. In the discussion of a measure such as the liquor Act it is essential that all sides should receive attention, and if the business men of the province lay stress upon the material side of the Liquor Act, it is because they believe that side to be of sufficient importance to be brought well to the front.

The voting day is July 21 next. Mark a cross in the square opposite the word "No", thus:

No	X

and so help to increase the onward march of progressive Alberta.

HAD A BAD COLD
WITH PROLONGED COUGHING.

TRIED NEARLY EVERYTHING FINALLY

DR. WOOD'S NORWAY PINE SYRUP CURED HIM.

Mr. Wallace H. Grange, Vancouver, B.C., writes: "During a cold spell here about the middle of last October (1913), I caught a cold which got worse despite all treatments I could obtain, until about November 22nd, a friend said, 'Why not try Dr. Wood's Norway Pine Syrup?' Really, I had no faith in it at the time as I had tried nearly every other remedy I had heard of, to no avail, but I thought I would give this last remedy a trial. I purchased a 50 cent bottle, and in three days I was feeling a different man. My cold was so hard, and the coughing so prolonged, that vomiting occurred after a hard spell of coughing. I carried the bottle in my pocket, and every time I was seized with a coughing spell I would take a small dose. I can most heartily recommend Dr. Wood's Norway Pine Syrup to anyone with a severe cold, as its powers are most marvelous, and I never intend being without it at all times."

When you ask for "Dr. Wood's" see that you get what you ask for. It is put up in a yellow wrapper; three pine trees the trade mark; the price, 25c and 50; manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

CANADIANS TOOK

AWFUL REVENGE

UPON GERMANS

London, May 15—A staff officer in the Royal Horse Artillery writing Rev. W. Armour, a Cheshire clergyman, says the following of the Canadians: "There has been fierce fighting and the Canadians have been splendid. They are in a tearing passion against the Germans who killed a lot of Canadian wounded where they lay. I do not suppose there has been such blind hatred between the two sides anywhere in this war.

"I saw some Canadian wounded being brought in yesterday. They had had their revenge and looked like white faced hungry wolves who had just suffered the blood lust. Very angry, very satisfied—quite the most unique looking wounded I have seen out here yet.

"The Canadians are grand fellows and quite unruffled by their huge loses. They never stop making jokes.

"The Germans simply turned and ran when the Canadians got close up with the bayonets after terrible casualties, but every German officer who stayed behind got killed.

"The way the Germans work the gas is: They have jets laid on when they retire. They leave a man behind to turn on the tap and then run for his life. A greenish fog is started floating along and you can breathe it in a moment.

LOSS FIVE TIMES THE REVENUE

To the Editor:

I recently expressed the opinion that if we were rid of the liquor traffic our taxes would be reduced 25 per cent. That was calculated from figures taken from the United States especially California, Indiana and Kansas. In California a comparison between twelve wet and twelve dry towns of about the same size showed that the average tax rate in the twelve dry towns was 1.07 per hundred dollars, while the average tax rate in the twelve wet towns was 1.56. These figures show that the average tax rate in the wet towns is .49 cents per hundred dollars higher than in the dry towns.

In Indiana statistics gathered by Ex-Governor Hanley showed that of six licensed cities with an approximate estimate of $100,000,000 the average city tax rate was $1.85 on the hundred dollars worth of property. In the six prohibition cities with about the same assessment the tax rate was 90 cents on the hundred dollars worth of property. These figure show that the tax rate in the wet cities is about double that of the dry cities of about the same size. Kansas City saved $50,000 on two items, police and criminal justice, in the very first year.

But let us take as an example of what might be done right at home in our fair city of Hamilton, not one of the worst by any means and this is how it figures out. The cost of crime and poverty is $286,255. Such reliable men as Gladstone, Sir Oliver Mowat and many judges have often told us that three-fourths of all the poverty and crime is due to drink. Three-fourths of $286.255 is $214,692. That being the case we have the immense sum of $214,692 as the cost to the city of the liquor traffic. That is about 13 per cent of our tax rate, raised by a levy of $2.10 on every $100 worth of property. That is only what lies on the surface, there is loss in many other ways which cannot be calculated, but judging by the experience of many other American towns might easily increase the saving to or beyond the amount of my estimate.

Out of all this expenditure, loss and injury to business, we drag as $41,000 in license fees, leaving a net loss of $173,692. In view of these facts is it not the height of folly to thus cut off the revenue at its source by making men so poor that they cannot help to pay their share of the taxes.

CANADIANS KILLED, WOUNDED

AND MISSING NOW

TOTAL 4,751

Ottawa, May 17—Canadian casualties sustained in the fighting at Langhemarcq and in the later fighting, in which the Princess Pats were engaged, are rapidly reaching the 5,000 mark. Since April 22 last total casualties up until this morning were 4,751. This includes 678 killed, 867 missing and 3,206 wounded. It will be remembered that the official estimate given out over a week ago by the minister of militia of the losses at Langhemarcq gave a total of about 6,000 casualties. Of these it was estimated that 2,000 odd were missing. So far only 867 missing are recorded, so that if the estimate is borne out in this category the total will be well over 5,000. Of course all allowance must be made for the casualties daily coming in from the trenches and for further casualties among the division in later fighting.

There is no apparent abatement in the numbers coming in each day to the official record office. A sinister fact about the more recent lists is that killed in action and missing figure most prominently.

During the week end alone the casualty lists totalled 634, with 131 killed, 252 missing and 251 wounded. In the second Ontario battalion alone there were no less than 125 missing in the week end lists. In the third Queen's Own, which has suffered very heavily in dead and missing there were 25; in the seventh British Columbia 33, and in the 16th Western Highlanders 28. It is very evident that certain of the battalions have been badly decimated in the famous four days' fighting.

In the house of lords Tuesday afternoon, Lord Kitchener said he wanted 300,000 more recruits to form new armies. He expressed his confidence that in the very near future the country would be in a very satisfactory position with regard to ammunition.

Lord Kitchener stated in the house of Lords that the British and French governments felt that the allied armies must be adequately protected against poisonous gases by the employment of similar methods. These would remove the enormous and unjustifiable advantage which must otherwise exist.

RESULTS OF "Y" TOURNAMENT

At 6 p.m. on Tuesday evening last the "Y" tournament began, twenty-two couples participating. The players went on the courts at 6, 7 and 8 o'clock for knock-out games. The winners played off from 8 to 9 p.m. At that time the honors lay between Miss H. Chandler and Mr. Cutler vs Miss Beulah Robinson and Mr. Kerr. Great interest was shown throughout and enthusiastic spectators watched the finish.

The decisive game which took place at 5.30 p.m. on Wednesday was well played by both couples. The advantage however was in favor of Miss Chandler and Mr. Cutler. The prizes given were a souvenir spoon and silver match box.

After the games the players repaired to the Rest Room on Landsdowne street where luncheon was served and a social time was enjoyed.

The "Y" wish to thank the Knox and Methodist clubs for the loan of the Courts.
